Brand positioning:

Analytical instrument manufacturer, laboratory solution provider!

Company introduction:

Shanghai Yuke Industry Co., Ltd. was established in 1999. It is a leading manufacturer of analytical instruments and laboratory equipment in China, and is known as a high-quality instrument manufacturer and perfect service provider. Committed to the research and innovation of scientific instruments and analytical methods in the food and pharmaceutical industries, in order to promote green food and health drugs, develop and produce analytical measuring instruments, and provide technical workers with application methods and comprehensive solutions.

Yuke professional R&D laboratory instruments include: **Thermal Analyzer (DSC/TGA/STA), Microwave Digester, Dissolution system, Melting point meter, Polarimeter, Refractometer, Density meter, Turbidity meter, Dropping point & Softening point tester, Micro heating table, Potentiometric Titration, Moisture meter, Osmometer, Viscosity meter, Hardness tester, Flash point tester ..** They are widely used in pharmaceutical and food quality control, education and research, environmental science, chemical engineering and other fields.

Yuke has established strict working standards and technical standards in R&D, parts procurement, standardized manufacturing, and production inspection. Yuke has obtained CE certification, TART certification, ISO quality management system certification, more than 10 software copyrights and multiple patents to ensure that each instrument has stable performance and excellent quality. Yuke headquarters was established in Shanghai, China, with 15 sales branches in China, sales agents in more than 10 overseas countries, and 2 production plants. At the same time, we have a top R&D team returned from Europe and America, cooperate with our superb manufacturing team, professional sales team and dedicated service team, working together to provide customers with high-tech, high-quality products and efficient, convenient, Comprehensive pre-sales and after-sales professional services.

At present, Yuke's products have been exported to more than 50 countries including the United States, Germany, France, Malaysia, Vietnam, India, Italy, etc. We are committed to participating in Arablab, PICCTON, Analytica Russia, Lab Africa, Analytica Germany, Analytica Latin America and other exhibitions. Open up different markets, and enjoy a good reputation with reliable quality, reasonable prices and good service to win a large market share.

Yuke is committed to providing customers with a better user experience and hopes to become a world-class scientific instrument manufacturer and laboratory solution provider!

Centrifuge

Brief Introduction

Based on the difference of precipitation rate in centrifugal force field, the samples can be analyzed and separated.

Fields of use

Centrifuge is widely used in experiments with small sample quantity, many steps, large centrifugal force and low temperature requirement. Such as: biochemistry, genetic engineering, agriculture and forestry disciplines, food hygiene, hospital and other scientific research units of the laboratory of the separation of samples.

The main features

1. Adopt TFT real color large touch LCD display, intelligent microprocessor control and simple and direct operation interface.
2. The drying chamber is made of aluminum alloy, and there is coating anti-corrosion treatment inside the drying chamber
3. Rotor capacity 1.5MLX62; Speed: 1350 revolutions; Range of temperature control: room temperature ~55°C or no heating
4. Maintenance-free contactless drive rotation system
5. Compact design, simple operation, easy to use.
6. Can be used with cold trap (cold trap temperature is -50 °C)
7. Transparent cover, easy to observe the progress.

Technical parameters

1. YK-ZLS3 Vacuum centrifugal concentrator (research type)
2. YK-ZLS2 Vacuum centrifugal concentrator (economical)
3. YK-ZLS1 Vacuum centrifugal concentrator (conventional type)
4. YK-H/T12MM Blood centrifuge
5. YK-TDZ4 Bench-top low-speed centrifuge
6. YK-DD5 Automatic decap centrifuge
7. YK-DD5M Automatic decap centrifuge
8. YK-TGL20MW Desktop large-capacity high-speed refrigerated centrifuge
9. YK-TDZ5 Benchtop centrifuge (low speed type)
10. YK-TG16MW Desktop centrifuge (high-speed type)
11. YK-TLW5R Benchtop Milk Fat Centrifuge (Professional)
